

I have received classes from Iga since a few months as part of my personal and professional development. She is totally committed to her work and she is the best motivating teacher I have ever met in my 45-years' life. She prepares all English classes individually with care and enthusiasm providing me with rich, attractive, and extra material of all the matters I would like to study. Iga is an absolute sensational tutor with an unusual teaching experience. What is more, she is excellent in proofreading. It's a great pleasure to recommend her to students of any level and of all ages, who would like to improve grammar, vocabulary, pronunciation, as well as business communication skills. Thanks for your invaluable help Iga!
